

The background of the page is filled with various abstract geometric shapes, including squares, rectangles, and stepped lines, scattered across the white space. These shapes are simple black outlines and vary in size and orientation, creating a modern, minimalist aesthetic.

# soft-fleet

Any fleet manager has it in them to be an admiral.

## soft-fleet

This is management software for a dealership's own and external vehicles, for example for courtesy cars when customers' cars are being serviced, rental vehicles and vehicles for test drives, including all demonstration cars and company cars or fleets. It is now finally possible to deploy your vehicles in a structured, cost-effective way.

soft-fleet shows vehicles used in different ways in different colors and thus helps the user to get a rapid overview of specific types of vehicle usage, such as test drives or business trips. Vehicle damage, including all of the important information about the driver and how the accident or damage happened as well as information about liability, is documented clearly, and comprehensive driver logbooks are kept, containing customer data, usage types and the corresponding mileage driven.

soft-fleet – the comprehensive solution for managing your stock of vehicles. Any fleet manager has it in them to be an admiral.

- Cross-company management of own and external vehicles grouped, for example, into company cars, demonstration cars, courtesy cars and rental cars
- Professional workflow from reservation to vehicle delivery with printed rental contracts and properly organized vehicle return
- Documentation of vehicle damage, including all of the important information about the driver and how the accident or damage happened as well as information about liability
- Clear color coding of specific vehicle assignments and printing of comprehensive driver logbooks, containing the usage type and the corresponding mileage driven
